SUMMARY

Frontend Developer with strong experience in building responsive and scalable web and mobile applications using React.js and React Native (Expo). Proficient in modern Typescript, UI development, and component-based architecture, with hands-on experience in Tailwind CSS for responsive design and performance optimization. Experienced in integrating REST APIs and collaborating with backend teams using NestJS, Laravel, and Express.js. Familiar with Google Cloud Platform for deployment and application scaling. Passionate about delivering clean, maintainable code and user-focused digital experiences.

EDUCATION

Universitas Semarang

2026 – Present

Bachelor, Informatics Engineering

Semarang, Jawa Tengah

- GPA: 3.78/4.0

Politeknik Negeri Semarang

2021 – 2024

Diploma, Informatics Engineering

Semarang, Jawa Tengah

- GPA: 3.77/4.0
- Assisting lecturers in developing learning applications as learning tools in junior high schools.

Bangkit Academy by Google, GoTo, Traveloka

Feb 2024 – Jul 2024

Cloud Computing Student

Remote

- Learned cloud computing, especially on Google Cloud Platform
- Working in a team to develop a capstone project
- Improve soft skills and communication skills in English
- Courses taken: Google IT Support, Google Cloud Computing Foundations, Cloud Engineer Learning Path, Basic Web Programming, Basic JavaScript, BackEnd with Google Cloud, Google Cloud Engineer, Basic AI, Machine Learning with Google Cloud, Application Development with Cloud Run, ACE exam simulation.

WORK EXPERIENCES

[Kawan Kode](#)

Jan 2026 – Present

Fullstack Developer (Freelance)

Semarang, Jawa Tengah

- Responsible for managing CI/CD pipelines and deployment workflows to ensure efficient and reliable application releases.
- Deployed and maintained applications on AWS and DigitalOcean, including configuration of staging and production environments.
- Built and maintained backend systems using Laravel, and developed administrative dashboards using Filament.
- Ensured system reliability, smooth deployments, and proper environment configuration across multiple projects.

PT. Data Andalan Utama

Sep 2024 – Apr 2026

Frontend Developer (Fulltime)

Semarang, Jawa Tengah

- Worked on 10+ projects, including applications built from scratch and feature development on existing systems
- Developed systems for marketplace, membership platforms, canteen systems, payment gateway integrations, etc.

- Contributed to feature development, bug fixing, and performance improvements across multiple applications
- Built and maintained web and mobile applications using React, Next.js, and Expo React Native.
- Built and deployed mobile applications using Expo React Native with EAS for building and delivery.
- Converted Figma/UI designs into responsive interfaces using Tailwind CSS and Shadcn UI.
- Integrated APIs using TanStack React Query for efficient server-state management.
- Implemented application state management using XState for predictable and maintainable workflows.
- Researched and adopted new tools and technologies to improve development workflow and application performance.
- Mentored interns by providing guidance, code reviews, and knowledge sharing to improve technical skills and best practices.
- Collaborated with cross-functional teams (designers, backend engineers, product teams) to deliver features on schedule.

PT. Adma Digital Solusi

Aug 2023 – Dec 2023

BackEnd Engineer (Internship)

Surabaya, Jawa Timur

- Develop Multi-Channel Marketplace Integration Web App from scratch.
- Provide API for frontend engineers.
- Collaborate in a team to develop the product.
- Learn to use third-party libraries and APIs (e.g., Lazada API).
- Design a database schema compatible with all marketplace API responses.
- Deploy frontend and backend applications on a server.
- Learn best practices in the Laravel Framework.
- Work within an Agile culture.

VOLUNTEER EXPERIENCES

Google Developer Student Clubs Politeknik Negeri Semarang

Aug 2023 – Aug 2024

Curriculum Developer

Semarang, Jawa Tengah

- Internal collaboration with other division to improve the community
- Become a speaker on a Study Jam event
- Create and develop interesting material for Study Jam event
- Become a speaker in collaboration event with other GDSC Community
- Sharing a tech knowledge with others GDSC Member

SKILLS

- **Hard Skills:** Express.js, Next.js, Laravel, PostgreSQL, Expo, Docker, GCP, Tailwind CSS, React Native, Git, NestJS, Tanstack Router, Shadcn, Tanstack Query, Xstate, Redux
- **Soft Skills:** Teamwork, Project Management, Critical Thinking, Resilience
